National Technical Honor Society Partnership

We are excited to share with HOSA chapters that HOSA will continue its partnership with the National Technical Honor Society. In 2020, NTHS will award (7) $1,000 scholarships to HOSA members who are also NTHS members.

NTHS Mission: To honor student achievement and leadership in career and technical education, promote educational excellence, award scholarships, and enhance career opportunities for the NTHS membership.

NTHS Vision: To be the international leader in providing recognition for excellence in career and technical education.

The leadership of **HOSA** and the **National Technical Honor Society** mutually agree that this partnership will accomplish the following objectives:

- Promote educational excellence in America.
- Encourage and reward higher scholastic achievement among the HOSA membership.
- Provide significant recognition for HOSA professional members who actively promote educational excellence at the national, state, and local levels.
- Offer extended services, benefits, and programs to HOSA and NTHS members and member schools.
- Provide HOSA and NTHS members with additional scholarship opportunities.

Establishing an NTHS Chapter: If your school or institution does not already have an established NTHS Chapter, we encourage you to begin one today. Any properly accredited, licensed school or college offering career or technical programs is eligible for a charter issued by NTHS. **There is no charter fee.** Visit www.nths.org for additional information on steps to start a Chapter. We have enclosed a membership form with the HOSA Logo so that the HOSA Scholarship fund will get the credit for the membership; **however, it is preferable you charter** online. On the application under "Referral", choose "Other" and type in "HOSA mailing".

Once your school has an NTHS Chapter, then submitting members is easy. The one-time fee is $30 and students receive the following benefits:

- NTHS display portfolio, member certificate, online access to a general letter of recommendation for the student's portfolio, lapel pin, membership card, window decal, white graduation tassel and official NTHS diploma seal
- **Scholarship Opportunities**
- Online access to order three custom letters of recommendation for potential employers, school admissions, and scholarship committees.
- Discounts with GEICO and Office Depot/Office Max
- Opportunities to purchase official NTHS commencement accessories and logo gear.
- NTHS professional development opportunities.

Students are considered active members as long as they are enrolled in classes offered by their charter institution. Student candidates must meet national and local membership standards.

To find out if your school has a chapter or to get information about NTHS, please contact the National Office or visit the NTHS website at www.nths.org.

HOSA is excited about the opportunities available and encourages you to take advantage.
