

Web Site Helps HOSA Members Explore Health-Related Higher Options:

Chance to Win a Scholarship!

Colleges and universities across the United States want to recruit HOSA members! This month's Web site review covers The Hobsons Guide to Degrees in Health Medicine and Nursing. This is a section of the popular www.collegeview.com site that puts students in touch with colleges and universities actively seeking health-career-bound students.

Visitors to www.collegeview.com will find a link to the health, medicine, and nursing section on the site's left hand navigation bar. Within the Degrees in Health, Medicine, and Nursing section visitors can review vital information on colleges across the country, request admissions information, ensure that they are meeting coursework requirements, and explore career options.

Additionally, any visitor who requests information from a featured school becomes automatically entered in a drawing for a \$1,000 scholarship to be held in June of 2004.

The Web site is published by Hobsons, a leader in education and career recruitment. Each year Hobsons handles nearly two million student requests for admissions information for its over 600 college and university clients.

A companion CD-ROM is also provided free-of-charge by Hobsons. Student advisors and teachers wishing to request free copies of this CD-ROM for use with their students can download a publication request form at <http://www.collegeview.com/mycollegeview/counselors/>. This form should be completed and faxed back to (800) 891-8531.

Thumbs up to Hobsons for helping HOSA members!
