Written Paper Guidelines

The paper and citations should be double-spaced. They are single spaced in this example to save space.

1. Write your paper on a computer and print it out on 8.5 x 11 inch white paper, stapled in the upper left corner.
2. Set the margins to 1 inch on all sides.
3. Use Times New Roman 12 pt. font.
4. Do NOT use bold face anywhere on the paper, EXCEPT on the title on the cover page, but be sure your title is Times New Roman, 12 pt. font.
5. Create a header that numbers all pages consecutively on the upper right-hand corner, ½ inch from the top and flush with the right margin.
6. For this event, create a cover page with the TITLE ONLY of the paper in the center of the page. (Do NOT put your name on the cover page.)
7. On the second page, center your title at the top of the page below the header and begin your paper immediately below the title.
8. Place the parenthetical reference at the end of the sentence but before the final period. For example, "...in the hospital" (Belkin 123).
9. In the ONE PAGE list of works cited, alphabetize by the author's last name. Alphabetize anonymous authors according to the first main word in the title. The shortened version of the title replaces the author's last name in the text citation. For example, "...in a rainy day" ("Meteorologist").
