New for 2019-2020

Competitors are no longer required to show event guidelines. At ILC competitors will be provided with a basic handheld calculator and two sheets of blank paper. Time remaining announcements have been added to the test. Editorial updates and clarifications have been made to guidelines. Scholarship information has been added to the guidelines. The designation of “Knowledge Test” has been removed from the event name.

Purpose
To encourage HOSA members to improve their ability to identify, spell, define and apply the principles and science common to pharmacology in the health community.

Description
The event shall be a written test requiring competitors to apply, analyze, synthesize and evaluate information related to pharmacology. Competitors will define, interpret and apply pharmacology terms and information in a 100 item multiple choice test plus one tie-breaker essay question. Written test will measure knowledge and understanding at the recall, application and analysis levels. Higher-order thinking skills will be incorporated as appropriate.

Dress Code
Competitors must be in official HOSA uniform or proper business attire. Bonus points will be awarded for proper dress.

Rules and Procedures
1. Competitors in this event must be active members of HOSA-Future Health Professionals, in good standing in the division in which they are registered to compete (Secondary or Postsecondary/Collegiate).
2. Competitors must be familiar with and adhere to the “General Rules and Regulations of the National HOSA Competitive Events Program (GRR).”
3. One essay question will be administered with the original test. In case of a tie, the essay question will be judged and used to break the tie.
4. The test plan and resources for Pharmacology are:

PHARMACOLOGY

Safety will be integrated throughout the test plan
• Basic Concepts in Pharmacology 12%
• Career Opportunities in Pharmacology 3%
• Ethical and Legal Responsibilities 10%
• Pediatrics and Geriatrics Adaptations 10%
• Drug Names, Classifications, Action, and Interactions 30%
• Drug Administration 20%
• Drug Measurement, Dosage, Conversions 10%
• Technologies in Pharmacology 5%
References for Pharmacology

NOTE: States/regions may use a different process for testing, to include but not limited to pre-conference testing, online testing, and testing at a computer. Check with your Area/Region/State for the process you will be using.

5. All competitors shall report to the site of the event at the time designated for the event orientation. The test will immediately follow the orientation. At ILC, photo ID must be presented prior to competing in each round. **No proxies will be allowed for the orientation.**

6. At the International Leadership Conference, HOSA will provide basic handheld calculators (no graphing calculators) for addition, subtraction, division, multiplication and square root. Check with State Advisor to determine if a calculator will be used at the State level.

7. All competitors will receive two (2) 8.5x11” sheets of blank paper for use during the test.

8. **Test Instructions:** The competitors will be given instructions and will be notified to start the test. There will be a maximum of 90 minutes to complete the test. Competitors should leave the testing site promptly after submitting all testing materials and evaluations.

9. **TIME REMAINING ANNOUNCEMENTS:** There will be a verbal announcement when there are 60 minutes, 30 minutes, 15 minutes, 5 minutes, and 1 minute remaining to complete the test.

10. The competitor should write his/her answer to the tie-breaker essay question on the tie-breaker page of the test that remains attached to the original test.

11. **ROUNDING:** When rounding decimal numbers to the nearest tenths, hundredths, or thousandths, look to the immediate right of the digit located in the position to be rounded. If the number to the direct right is 5 or larger, round to the position up one number and drop everything that follows. If the number to the direct right is 4 or smaller, leave the position being rounded as is and drop everything that follows.

   In specific situations, answers will be rounded per medical protocol. For example, pediatric dosage is always rounded DOWN to avoid potential overdose. **Unless otherwise indicated, all answers should be rounded to the nearest whole number.** (Examples: 31.249 (rounded down) = 31 and 23.75 (rounded up) = 24).

12. HOSA offers numerous scholarships every year to its members interested in pursuing a variety of health careers. As you consider participating in this competitive event, please keep in mind there may be a HOSA Scholarship offered that fits your interests! For more information on the HOSA Scholarship program, please visit [http://www.hosa.org/scholarships](http://www.hosa.org/scholarships).
Competitor Must Provide:
- Two #2 lead pencils with an eraser
- Photo ID
