

# Emergency Medical Technician

**New for 2018-2019**

The guidelines have been updated to align with the NREMT EMR Psychomotor Exam released 6.1.18. At ILC, [photo ID](#) must be presented prior to competing in each round. Changes have been made to the number of items competitors bring to the event.

- Purpose** To provide HOSA members with an opportunity to develop and demonstrate knowledge and skills as a team in emergency medical care.
- Description** This event will consist of two rounds of competition for a 2-person team. Round One is a written, multiple choice test. Written test will measure knowledge and understanding at the recall, application or analysis levels. Higher-order thinking skills will be incorporated as appropriate. The top scoring teams will advance to Round Two for the performance of selected skill(s) identified in a written scenario. The scenario will require the use of critical thinking skills. The performance will be timed and evaluated according to the event guidelines.
- Dress Code** Competitors shall wear proper business attire or official HOSA uniform, or attire appropriate to the occupational area, during the orientation, written test and skill(s)– jeans and shorts are not acceptable. Bonus points will be awarded for [proper dress](#).
- Rules and Procedures**
- Competitors in this event must be active members of HOSA-Future Health Professionals and in good standing in the division in which they are registered to compete (Secondary or Postsecondary/Collegiate). Competitors should compete in skills events at the highest level of training. An example would be students enrolled in an Emergency Medical Technician course should compete in the Emergency Medical Technician event and not in the CPR/First Aid event.
  - Competitors must be familiar with and adhere to the [“General Rules and Regulations of the National HOSA Competitive Events Program \(GRR\).”](#)
  - The written test will consist of fifty (50) multiple choice items. Competitors will be given 60 minutes to complete the test. The scores of the two team members will be averaged for one composite score and will be used as a part of the final score for the event.
 

Round One: **Written Test Plan**

Patient Assessment .....	20%
Basic Life Support.....	20%
Trauma .....	15%
Medical Emergencies .....	15%
Pediatrics and Childbirth.....	15%
Environmental Emergencies.....	10%
Special Situations .....	5%
  - All competitors shall report to the site of the event orientation at the time designated. The Round One test will immediately follow the orientation. At ILC, [photo ID](#) must be

presented prior to competing in each round. **No proxies will be allowed for the orientation.**

5. Test Instructions: There will be a maximum of **60 minutes** to complete the test. There will be a verbal announcement when there are 15 minutes remaining for the test period.

NOTE: *States/regions may use a different process for testing, to include but not limited to pre-conference testing, online testing, and testing at a computer. Check with your Area/Region/State for the process you will be using.*

6. All official references are used in the development of the written test. The specific references selected for each skill are the National Registry EMT skill sheets.

- [American Heart Association, Basic Life Support, Latest edition. Distributed by Channing L. Bete Co., Inc. – 1-800-611-6083.](#)
- [Limmer, Daniel. Emergency Care. Published by Prentice Hall, a “Brady” book, Latest edition.](#)
- NREMT Basic Level Skill Sheets (as posted as of September 1, 2018)  
<https://www.nremt.org/rwd/public/document/psychomotor-exam>

7. The test score from Round One will be used to qualify the team for Round Two. The skills approved for this event are:

Skill I:	Patient Assessment - Trauma
Skill II:	Patient Assessment - Medical
Skill III:	BVM Ventilation: Apneic Adult Patient
Skill IV:	Immobilization/Splinting
	A. Spinal Immobilization: Seated Patient
	B. Spinal Immobilization: Supine Patient
	C. Joint Injury
	D. Long Bone Injury
Skill V:	Bleeding Control/Shock Management
Skill VI:	Cardiac Arrest Management/AED

8. A **twelve (12) minute maximum time limit** has been set for the team demonstration. Timing will begin when the scenario is presented to the team. Competitors will be stopped at the end of the time allowed
9. HOSA Management and event personnel have the option of providing one additional minute to the skill event interval prior to the scenario for competitors to preview the equipment that is provided for the event. If given, the one minute allowed for equipment preview will be added to the overall skill interval and competitors will be told they have an extra minute to review the equipment.
10. The selected skill(s) for Round Two, in the form of a written scenario, will be presented to the competitors at the start of the skill to be performed. The timing for the skill will begin when the scenario is presented. The scenario will be the same for each team and will include a challenging component that will require the competitors to apply critical thinking skills. Each scenario will include patient assessment and additional skill(s). A sample scenario can be found [here](#).

11. The scenario is a secret topic. Professional ethics demand that competitors DO NOT discuss or reveal the secret topic until after the event has concluded. Violation of the ethics rules will be severely penalized.
12. Competitors must complete all steps of the skill listed in the guidelines even if the steps must be simulated/verbalized. (If the equipment is available, the competitors would complete all steps of the skill as the scenario warrants. If the equipment is NOT available, the competitors would simulate/verbalize the steps.)
13. *Oxygen Administration:* Oxygen tank assembly is not included in the HOSA EMT event. HOWEVER, an oxygen tank that is ready to use may be available. If the application of oxygen is indicated by the scenario and condition of the patient(s) the competitors should follow proper EMS protocol in initiating and maintaining oxygen therapy.

If a tank is NOT available and oxygen is indicated, the competitors should verbalize the necessary steps that involve the application of oxygen.  
Points will be awarded as indicated on the rating sheet used to evaluate all aspects of team's performance, including the use of oxygen therapy.
15. Judges will provide information to competitors as directed by the rating sheets. Competitors may ask questions of the judges while performing skills if the questions relate to patient physiology. For example:
  - What are the vital signs?
  - Do I hear breath sounds?
  - Do I have a distal pulse?
  - Is the patient breathing?
  - Are the patient's lips blue?
16. The teams must earn a score of 70% or higher on the combined skill(s) of the event (excluding the test) in order to be recognized as an award winner at the ILC.
17. In case of a tie, the highest averaged test score will be used to determine the rank.

**Competitor Must Provide:**

- Event guidelines – one per team (orientation)
- Two #2 lead pencils with eraser
- Watch with second hand
- [Photo ID](#)

**\* Teams have the option of bringing one kit per person or one kit per team**

- Barrier supplies for each competitor:
  - 5 pairs of non-latex gloves AND 2 masks AND 2 gowns
  - 1 set of goggles or safety glasses per person
- 6 "4x4" (packaged any way)
- 6 any size self-adhering roller bandages (i.e. Kling)
- 4 cravats (Defined as strips of cloth, triangular bandages folded into strips, roller gauze, or other similar material to tie or anchor splints in place.)
- Adhesive tape
- Scissors
- Penlight
- 2 occlusive dressing supplies
- 4 abdominal / trauma dressings
- Stethoscope/B/P cuff
- Oral airway kit (sizes 0-6)
- BVM
- Pocket mask and/or other appropriate barrier (face shield, mouth-to-mask device)
- Tourniquet
- Cell phone for simulating call for EMS assistance

**Required Personnel:**

- One Event Manager
- One QA to provide quality assurance for the event by ensuring that the guidelines are followed and all event documents are complete.
- One Section Leader per section
- 1 judge per section per skill
- Proctors for Testing - Approximately one proctor for 20 competitors
- Event assistants per section as needed
- One-two patients as required by the scenario (per section)
- Holding room attendants(s) as needed
- Timekeepers (if necessary)

**FOR SPECIFICS ON EVENT MANAGEMENT SEE [MANAGING COMPETITIVE EVENTS](#)**

**Facilities, Equipment and Materials (Per Section):**

- Assorted props, which may include pillows and/or blankets

**Round One: Written Test** (Reference: All resources)

- List of competitors for check-in
- One pre-numbered test per competitor
- Scantron/answer forms- one copy per competitor
- Evaluation forms- competitor and event personnel
- #2 lead pencils with eraser to complete evaluations (event personnel)

**Round Two Skills Equipment: General**

- Stations for selected skills
- Holding rooms/areas for competitors (if off-site)
- List of competitors for check-in

- Written Scenario-copies for judges, section leaders
- Patient and judge scripts as needed
- #2 lead pencils (judges & evaluations)
- Stopwatch(s)
- Rating sheets-one per judge per team
- Evaluation forms-competitor, judge, event personnel
- Copy of guidelines for judges
- Hand sanitizer (alcohol based handrub)

**Skill I Patient Assessment – Trauma** (National Registry EMT Skill Sheets)

- Patient

**Skill II Patient Assessment – Medical** (National Registry EMT Skill Sheets)

- Patient

**Skill III BVM Ventilation: Apneic Adult Patient** (National Registry EMT Skill Sheets)

- Oxygen cylinder (tank)
- O<sub>2</sub> regulator and attachments
- Airway management manikin without electronic connections
- Suction device
- Suction catheter

**Skill IV-A Spinal Immobilization: Seated Patient** (National Registry EMT Skill Sheets)

- Patient
- KED
- 1 set - Extrication collars

**Skill IV-B Spinal Immobilization: Supine Patient** (National Registry EMT Skill Sheets)

- Patient
- Long spinal immobilization board
- 1 set - Extrication collars
- Head immobilizer
- Straps

**Skills IV - C & D Joint and Long Bone Immobilization** (National Registry EMT Skill Sheets)

- Patient
- Board splints (2 each size)

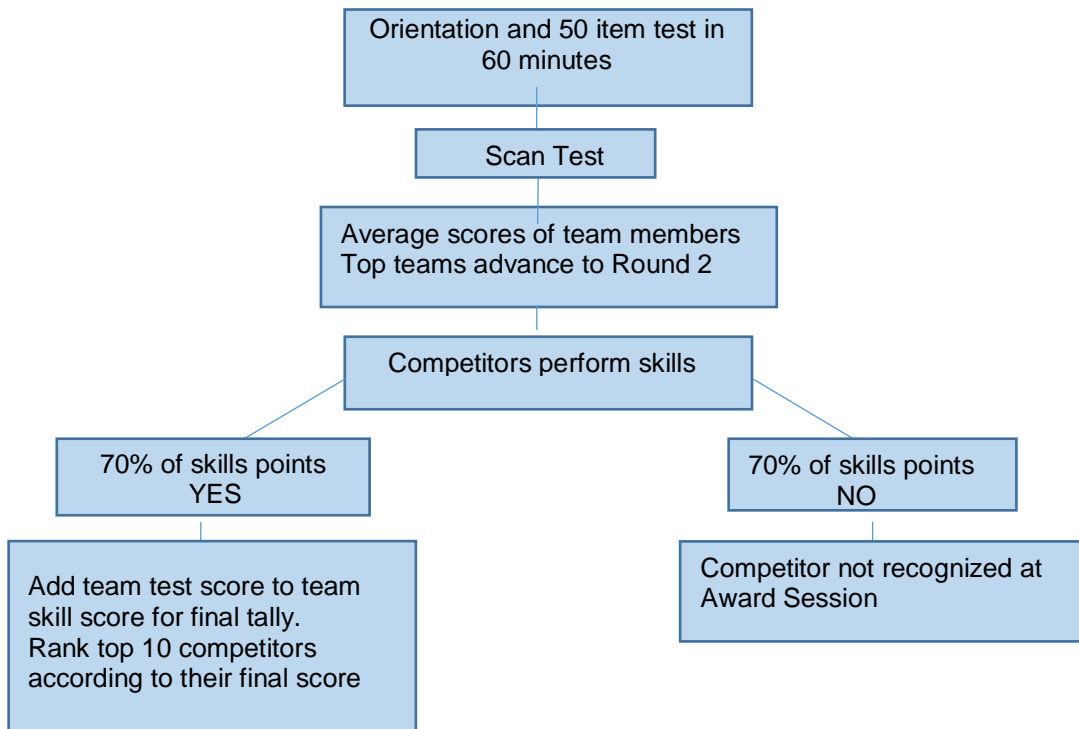

**Skill V Bleeding Control/Shock Management** (National Registry EMT Skill Sheets)

- Patient

**Skill VI Cardiac Arrest Management/AED** (National Registry EMT Skill Sheets)

- AED (with appropriate size batteries)
- CPR manikin

**Event Flow Chart**

**Sample Round One Test Questions**

1. Pupils that are nonreactive to light may indicate any of the following conditions EXCEPT:
  - A. dehydration.
  - B. eye injury.
  - C. drug influence.
  - D. head injury.
  
2. If an adult patient is not breathing but has a pulse, the patient should be ventilated at a rate of:
  - A. 6-8 breaths per minute.
  - B. 10-12 breaths per minute.
  - C. 14-16 breaths per minute.
  - D. 18-20 breaths per minute.
  
3. All of the following are indications a patient is in shock EXCEPT:
  - A. restlessness and anxiety.
  - B. bounding pulse.
  - C. cool, pale skin.
  - D. shallow, rapid breathing.

# EMERGENCY MEDICAL TECHNICIAN

Team #: \_\_\_\_\_ Section #: \_\_\_\_\_

<b>Skill I: Patient Assessment – Trauma</b>		<b>Possible</b>		<b>Awarded</b>
1.	Practiced body substance isolation precautions throughout skill	1	0	
2.	Scene Size-up			
	a. Determines the scene/situation is safe	1	0	
	b. Determines the mechanism of injury/nature of illness	1	0	
	c. Requests additional EMS assistance if necessary.	1	0	
	d. Determines the number of patients	1	0	
3.	If trauma suspected, competitor verbalizes/simulates, "Spinal Immobilization performed at this time"	1	0	
4.	Primary Survey/Resuscitation			
	a. Verbalizes general impression of patient	1	0	
	b. Determines responsiveness/level of consciousness	1	0	
	c. Determines chief complaint/apparent life threats	1	0	
5.	Airway			
	a. Opens and assess airway	1	0	
	b. Inserts adjunct as indicated	1	0	
6.	Breathing			
	a. Assesses breathing	1	0	
	b. Assures adequate ventilation	1	0	
	c. Initiates appropriate oxygen therapy	1	0	
	d. Manages any injury which may compromise breathing/ventilation	1	0	
7.	Circulation			
	a. Checks pulse	1	0	
	b. Assesses skin (either color, temperature or condition)	1	0	
	c. Assesses for and controls major bleeding (if present)	1	0	
	d. Initiates shock management (positions patient properly, conserves body heat)	1	0	
8.	Identifies patient priority and makes treatment/transport decision (based upon calculated GCS)	1	0	
9.	Obtains baseline vital signs (must include BP, P and R)	1	0	
10.	Past medical history			
	a. Allergies	1	0	
	b. Medications	1	0	

Items Evaluated	Possible		Awarded
c. Past Pertinent History	1	0	
d. Last Oral Intake	1	0	
e. Events Leading to Present Illness	1	0	
<b>SECONDARY ASSESSMENT</b>			
11. Head			
a. Inspects and palpates scalp and ears	1	0	
b. Inspects mouth*, nose* and assesses facial area.	1	0	
c. Assesses eyes	1	0	
12. Neck*			
a. Checks position of trachea	1	0	
b. Checks jugular veins	1	0	
c. Palpates cervical spine			
13. Chest*			
a. Inspects chest	1	0	
b. Palpates chest	1	0	
c. Auscultates chest			
14. Abdomen/pelvis*			
a. Inspects and palpates abdomen	1	0	
b. Assesses pelvis	1	0	
c. Verbalizes assessment of genitalia/perineum as needed			
15. Lower Extremities*	2	0	
One (1) point per leg includes inspection, palpation, and assessment of motor, sensory and distal circulatory function			
16. Upper Extremities	2	0	
One (1) point per arm includes inspection, palpation, and assessment of motor, sensory and distal circulatory function			
17. Posterior thorax, lumbar and buttocks*			
a. Inspects and palpates posterior thorax	1	0	
b. Inspects and palpates lumbar and buttocks (verbalizes) area	1	0	

Items Evaluated		Possible		Awarded
18.	Manages secondary injuries and wounds appropriately.	1	0	
19.	Demonstrates how and when to reassess the patient	1	0	
20.	Interventions (verbalizes proper intervention/treatment.)	1	0	
21.	Exhibits acceptable affect with patient and other personnel	1	0	
22.	Provides report to Emergency Department			
	a. Unit identification	1	0	
	b. Patient's age and sex	1	0	
	c. Chief complaint	1	0	
	d. Mental status	1	0	
	e. Vital signs	1	0	
	f. Treatment in progress	1	0	
	g. Estimated time of arrival	1	0	
<b>TOTAL POINTS -- SKILL I</b>		<b>55</b>		
<b>70% Mastery for Skill I = 38.5</b>				

*\* Award points in areas denoted by \* if done. OR if integrated within sequence of Primary Survey/Resuscitation.*

*\*\*If a student jeopardizes the patient's or his/her own safety and does not take immediate action to correct the error, the total points for the skill or specific subpart(s) of the skill will be deducted.*

<b>Skill III: BVM Ventilation: Apneic Adult Patient</b>	<b>Possible</b>	<b>Awarded</b>
1. Practiced body substance isolation precautions throughout skill	1 0	
2. Checks responsiveness	1 0	
3. Requests additional EMS assistance	1 0	
4. Checks breathing and pulse simultaneously for no more than 10 seconds.	1 0	
<b><i>Judge states "The patient is unresponsive, apneic and has a weak pulse of 60."</i></b>		
5. Opens airway properly	1 0	
<b><i>Judge states "The mouth is full of secretions and vomitus."</i></b>		
6. Prepares rigid suction catheter	1 0	
7. Turns on power to suction device or retrieves manual suction device.	1 0	
8. Inserts rigid suction catheter without applying suction	1 0	
9. Suctions the mouth and oropharynx (quickly and adequately)	1 0	
<b><i>Judge states "The mouth and oropharynx are clear."</i></b>		
10. Opens the airway manually	1 0	
11. Inserts oropharyngeal airway	1 0	
<b><i>Judge states "No gag reflex is present and the patient accepts the airway adjunct."</i></b>		
12. Ventilates the patient immediately using a BVM device unattached to oxygen*	1 0	
<b><i>Judge states "Ventilation is being properly performed without difficulty."</i></b>		
13. Rechecks pulse for no more than 10 seconds	1 0	
14. Attaches the BVM assembly to oxygen @ 15L/min	1 0	
15. Ventilates the patient adequately		
a. Proper volume to make chest rise	1 0	
b. Rate of 10-12/min, but not to exceed 12/min	1 0	
16. Initiates ventilation within 30 seconds after taking body substance isolation precautions and does not interrupt ventilations for greater than 30 seconds at any time	1 0	
17. Exhibits acceptable affect with patient and other personnel.	1 0	
<b>TOTAL POINTS – SKILL III</b>	<b>18</b>	
<b>70% Mastery for Skill III = 12.6</b>		

*\*Award this point if competitor elects to ventilate initially with BVM attached to reservoir and oxygen, as long as first ventilation is delivered within 30 seconds. \*\*If a student jeopardizes the patient's or his/her own safety and does not take immediate action to correct the error, the total points for the skill or specific subpart(s) of the skill will be deducted*

Skill VI Cardiac Arrest Management/AED	Possible	Awarded
1. Practiced body substance isolation precautions throughout skill	1 0	
2. Determines the scene/situation is safe	1 0	
3. Checks patient responsiveness	1 0	
4. Directs assistant to retrieve AED.	1 0	
5. Requests additional EMS assistance	1 0	
6. Checks for breathing and pulse simultaneously for no more than 10 seconds	1 0	
<b>Judge states "The patient is unresponsive, apneic and pulseless."</b>		
7. Immediately begins chest compressions of adequate depth and rate, allowing the chest to recoil completely	1 0	
8. Performs approx. 2 minutes of high quality, 1 rescuer adult CPR		
a. Adequate depth and rate	1 0	
b. Correct compression-ventilation ratio	1 0	
c. Allows the chest to recoil completely	1 0	
d. Adequate volumes for each breath	1 0	
e. Minimal interruption of no more than 10 seconds throughout	1 0	
<b>Note: After approx. 2 minutes or 5 cycles, assess patient and the 2<sup>nd</sup> rescuer enters and resumes compressions while first rescuer operates the AED.</b>		
9. Turns on AED power	1 0	
10. Follows prompts and correctly attaches AED to patient	1 0	
11. Directs rescuer to stop CPR and ensures all individuals are clear of the patient during analysis of the rhythm	1 0
