**ABOUT HOSA WHO WE ARE**

HOSA is a national student organization that provides a unique program of leadership development, motivation, and recognition exclusively for secondary, postsecondary, collegiate and adult students enrolled in health science education. **HOSA is 100% health care!**

**OUR MISSION WHAT WE DO**

The mission of HOSA is to enhance the delivery of compassionate, quality health care by providing opportunities for knowledge, skills and leadership development of all health science students, therefore, helping students to meet the needs of the health care community.

HOSA is proud to partner with Project Lead The Way to prepare students for careers in the biomedical sciences.

PLTW’s four-course Biomedical Science Program for high school students allows students to explore topics such as human body systems, physiology, and the prevention, diagnosis and treatment of diseases.

For more information on how to implement PLTW in your school or district, visit www.pltw.org or call (877) 335-PLTW today.

HOSA recognizes the importance of providing students with training beyond health specific technical skills required for entry into health care, and plays a unique role in preparing students for higher education and entry level certification (EMT, pharmacy tech, CNA, etc). The rapidly changing health care system needs dedicated workers who are people-oriented and capable of playing a leader or follower role as a member of a health care team. HOSA, a student-led organization of future health professionals, provides opportunities for students to develop, practice, and refine their technical, leadership, and teamwork skills to achieve a seamless transition from education to a career.

BE THE BEST
COMPETITIVE EVENTS

HOSA’s competitive events program, aligned with the National Healthcare Foundation Standards, helps students graduate and be career and college ready. We offer six event categories including:

△ Health Science
△ Health Professions
△ Emergency Preparedness
△ Leadership
△ Teamwork
△ Recognition

The 56 competency-based events provide a variety of teaching strategies that health science instructors can use to enhance student engagement and learning.

THE NUMBERS
DEMOGRAPHICS

Registered nurses, home health aides, and personal care aides are among the occupations nationally projected to have the largest job growth between 2010 and 2020, adding more than 2 million jobs and with another 700,000 job openings due to vacancies from attrition.
